SAN FRANCISCO, Oct. 20=-The strong wind blowing over the city this morning caused the collapse of many of the walls of ruined buildings that had been left standing since the fire. Reports have come of the death of three men by the falling of one of the walls of a building at Commercial and Montgomery streets. Another accident was on Mission Street, near Third, where four Italian laborers were buried under a falling wall of the Pacific Mutual Life building. Two of these men were taken out dead. The others were removed to a hospital.

Mrs. M. McGauley Granted Divorce Decree.

Mrs. Minna T. McGauley, prominen club woman, president of the Mills College Alumni and past president of the Mills Club, is a free woman. Judge John Ellsworth, who was inclined to request further evidence of the desertion charge, granted her an interlocutory decree of divorce from her astthetic husband, James McGauley, auditor of a San Francisco bank, in the Superior Court this morning.

Strikingly attired in a green silk tailor gown, a Parislan creation, the bodice being elaborately trimmed with Chantilly lace, Mrs. McGauley entered the court room accompanied by her parents, Mr. and Mrs. R. Hoppe, and her lawyer, A. Hoyneman.

Her brungite comliness made her the tentral figure of the little group that gathered round the witness chair which from her apparent expressions of nervousness seemed to her a place de ex-

ecution.

Prior to the commencement of the proceedings her aristocratic parents encouraged her from time to time with words of hope and cheer, and the young wife, whose complaint is considered the most startling in the history of Ahmeda county, railied under their expressions of courage and fortitude and went forth to the stand to become a marryr to publicity.

went forth to the stand to become a martyr to publicity.

Mr. Hoppe, her father, one of the largest manufacturers of surgical instruments across the bay, was as solicitous for the welfare of his daughter as was her mother. Both testified in favor of the sorrow-stricken woman whose plea for an absolute separation from her husband brought forth such novel and sensational testimony. aration from her masonal drought and such novel and sensational testimony. Her answers were made in a soft and low voice but her articulation and enunciation were perfect. Aside from the purents, the judge, the lawyers, Deputy County Clerk Harry Baker, (Continued on Page Three.)

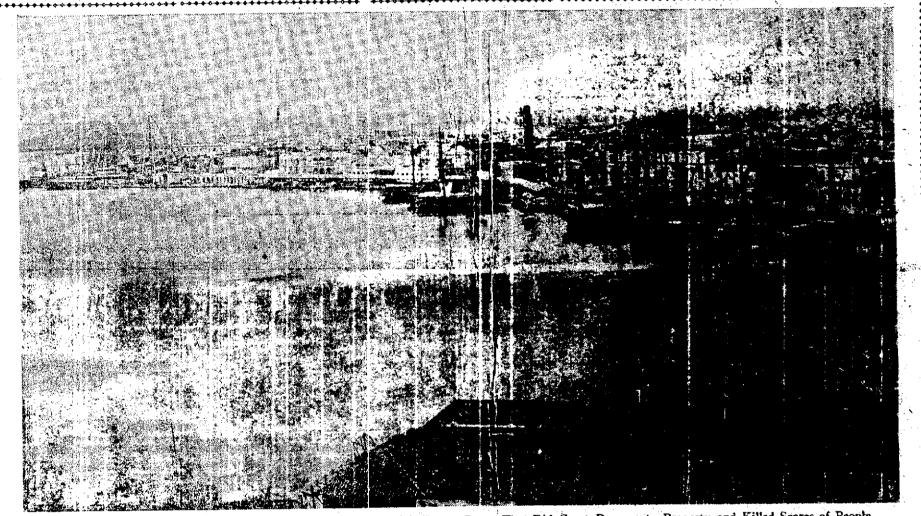

PUBLIC FACES DOUBLING OF PRICE OF MILK

SAN FRANCISCO, Oct. 20.unless the Milk Wagon Drivers' Union withdraws its ultimatum, Union withdraws its ultimatum, the local dairymen announce that they will be forced to double, or nearly double, the retail prict of milk. The day delivory system, which the drivers ask for, would involve the icing of milk to prevent fermentation, and the consumers will be the ones to prove the province of the consumers will be the ones to province the service of the consumers will be the ones to province the consumers will be the ones to be consumers will be the ones to be

GOLD Are You SILI Making Any? SILI

Lots of people have been making lots of money out of the Nevada Stocks in the last five years. If you have not made any, it is either because you have not been directed right or that you were not inclined to make money by investment. I have been very successful in picking out the stocks of merit and therefo e my clients have made money

One of the best purchases in the market today is Silver Queen at 15 cents. This mine is in the great Fairview District which is now attracting the attention of the best mining men and investors in the country. It is the big men of Goldfield, Tonopah and Bullfrog that have developed this wonderful camp.

The Silver Queen is owned and controlled by practical men and not by speculators. It is therefore an inrestment and not a speculation. They have any quantity of ore which will yield a big profit when it can be milled on the ground. So far the mine has more than made expenses and under the most adverse conditions. It is located in almost an maccessable place, which is nearly always true in the finding of gold

Silver Qu on has several veins of ore from which rich ore has been picked, sacked and carried out on

Now when the cre that can be packed out of the mine on the backs of eight little burros will pay all the expenses in running a mine and leave a good profit besides, does it not stand to reason that a big profit can be made with a mil on the ground?

Silver Quien owns its own water right and has plenty of timber, which is a big asset to a mine in Ne-

Nearly Six Hundred Deeds Show That Transfers of Property Still Continue.

There has been no cessation during the present week of sales by the real estate men of this city, a circumstance which has been demonstrated in several ways. Continued activity has characterized offices in the various parts of the city, and there has been none in the calling who has not rejoiced over sales which brought satisfactory commissions. There has been a demand for all kinds of property, because all kinds of people have been seeking for sites on which to build, or else in which to invest idle funds. A number of places in the heart of the city have found new owners, on the outskirts. have found new owners, on the outskirts many choice pieces have been disposed of, and in the southern part of the city the activity has been equaled only by

has come to make Berkeley his home and also a point of investment and he has instructed his architect in this matter to introduce in this building all needed and required improvements The structure will be quite ornate and rich in its exterior treatment. The outside walls will be enclosed with pressed steel netting drawn on with hydraulic clamps and counter laced at suitable points into the main frame. The structural conditions will be quite an innovation and this building will have a special system of interior web reinforcements. A new style of blue stamped steel bridgings will be used, together with wrought steel joist hangers throughout, so that on whole the building will stand all vi-bratory strains and stress.

The exterior being of a type peculiar to scenic California, will receive a cementive pebble dash finish done off ir a light zinoleth buff. The other features will be consistent and complimentary in tone and the whole will he rendered in character peculiar to Mr. Coplin's work.

Inside the apartments will be assorted from four and five rooms to six and seven rooms. Roomy corridors, private halls, spacious light wells, good elevator sericey and splendid ventilation will make this abode all that is to be desired.

The wall coverings throughout will be quite different in style and variety and will express the latest in tapestry

effects.

The plumbing and sanitary features will be beyond criticism. Solid integral cast white enamed ware will be used in all the apartments. The supply of baths and lavatories will be laid out on a liberal basis and all lavatory quarters fully filed with the most approved unglazed terra-vitra tile.

Little Short of Murder.

The great loss of life near Miami by the recent storm on the east coast of Florida was directly due to the greed and indifference of a big railroad corporation or contractors in its employ. The hurricane swept the sea over Elliott's Key, a low sand spit some Lucie were killed. The vessel was a little coasting craft of one hundred and two tons, owned by the Florida East Coast Railway. works being constructed by the railroad.

Although warned by the United States Signal Service that a hurricane was imminent, the captain of the St. Lucie steamed at nightfall for Elliott's Key, carrying, besides his crew of thirteen, over one hundred workmen. He anchored under Gaston to employ nineteen assistants. the lee of the island, but he found it but little protection from the fury of the storm. His vessel was lost, with a large number of the men on board. A barge used as a bunkhouse for the railroad workmen was carried out to sea, and fifty or more men on board either drowned or killed.

It is a shocking story, illustrative of the reckless manner in which the lives of workingmen are imperiled nowadays. Had the St. Lucie's captain heeded the storm signals a great many lives would have been saved. Had proper precautions been adopted to cember and January. 1905, were paste, it would be sufficient to put guard against the tropical storms which sweep along the Florida coast the men on the barge would not have had their lives sacrificed. Laws should be enacted to punish those who needlessly peril human life in the effort to save or make money.

FACTS ABOUT THE STREETS.

EDITOR TRIBUNE. I wish to add a communication of a few words to those already written in reference to improvements; of streets and sidewalks in the city of Oakland. I have been a citizen of Oakland for twelve years, and have seen much delay and people of Oakland.

Twentieth street, near Grove, and the sidewalk on the north side of Twentieth street, near Grove, is still in bad condition and is impassable in rainy weather, great holes in the walk, some deep, great gaping holes that will hold a barrel of mud and water. A nice place to travel through, a walk about 200 feet long. Thoumighty inconvenient, and few make public their complaint, knowing it will do no good

There is an ordinance, if I do not misjudge, which was passed by the city fathers, which called for over-hanging awnings to be at least seven feet above the sidewalk. There are awnings on San Pablo avenue which a man under six feet under ordinary circumstance, must stoop to pass under in order to go by or he will lose his hat in the operation and cause him much mental anguish. This condition of awnings specified has been so for some time, not only here, but in other parts of the city, and is a rank violation of a very about lockouts, tieups, etc., is the opinion of valuable ordinance.

We can stand much inconvenience while improvements are being made and when they are not, but when the evil conditions exist for years in the same place, with no better outlook for the future, then one gets weary of the state of affairs, and has just reasons for complaint and criticism. Unless something is done soon with this class of improvements the commonwealth will come forth with a remedy to better the condition of things stated herewith.

> Take a stroll on Twentieth street By San Pablo way. In mud and water ankle deep On any rainy day,

There is no doubt but that the whole question can be readily adjusted, and the Building Trades Council will quickly consent to arbitration, providing, however, the entire question relative to the dvanced cost of building be submitted to the arbiters.

Since April 18 there has been new lumber and material lists issued almost weekly, increasing the prices on such articles until they cost nearly double what they did prior to the big shake-up, and all the contractor could do was to stand the raise and look the poll with the big Democratic machines against him. COMBATING THE "LAZY WORM."

A large district in the middle of Porto Rico, with a population of 100,000, is afflicted with the "lazy worm," and official efforts are being made to improve the inhabitants' condition. A hospital has been established at Albonito, with an endowment of \$15,000, and will do what it can to check the ravages of this minute reptile, of the existence of which the old-time native Porto Rican never had the slightest notion. Last year an American medical officer, Captain Ashford, treated 4500 cases, and nearly all of them were cured. As a result, the population is aroused to much enthusiasm, and the afflicted are applying in great numbers for treatment, Heretofore the malady has been deemed incurable. Exchange

THE SHERIFF NEEDS MORE DEPUTIES.

EDITOR TRIBUNE: We have had the good fortune in the ducted it in the manner it should be. We now have a gentleman in the office who is seeking to be re-elected, and there is not a question or is there a doubt that he will be re-elected and conduct his office as it should be conducted.

The point that I wish to mention and bring out is that he has to have sufficient deputies to assist him in fulfilling his duties. He has now from ten to fourteen deputies, five of whom are clerks of the Superior Court and five are baliffs; the rest attend to the jail, etc. The five who act as bailiffs while the courts are in session have to attend to the outside duties of the office-attachments, guaranteements, taking prisoners to the different State prisons and asylums and the like. At the first of the year he will be able to appoint two additional deputies. Two years ago a movement was provided to increase the members of the office but Senator Lukons.

In the Annual Report of the office but Senator Lukons.

In the Annual Report of the office but Senator Lukons.

In the Annual Report of the office but Senator Lukons. made to increase the members of the office, but Senator Lukens and a few others opposed it, and consequently he has been handicapped by want of sufficient deputies. We notice that in the last four months the Sheriff has been called out to do police duty in the

It is rather hard and, I think, unreasonable, to ask men to do police duty at night after they have worked during the day, and the records of the Sheriff's office will show that business has increased at least three or four times in the last year, and it looks as though it will still increase. Of course, the great cry is that it will be more expense to the county to increase the force, but if the people of Alameda county expect the Sheriff to conduct the duties of his office in the manner that they should be conducted they must give him more deputies and stand the expense that it will cost the county.

The Sheriff needs at least five or ten more deputies, and if the gentlemen who represent the county in the Legislature this winter cannot or will not give the Sheriff more deputies to attend to the duties of the office, it is the duty of the people of this county to not send them back again.

AN OPEN LETTER

Oakland, Cal., Oct. 20, 1906.

THE OAKLAND HERALD.

OAKLAND, CAL.

DEAR SINS-

One of the first remarks made by your Mr. Worcester at the meeting at "The Herald" office on Tuesday last was to the effect that everybody knows who controls "The Herald," and how foolish it was for a small man like me to buck up against the Realty Syndicate. I trust you have realized by now that I am not afraid of "The Herald" or of the Realty Syndicate. I am right in the matter, and in this land there are laws for the small and the great alike.

You see I KNOW how many carrier boys you have in Fruitvale and Alameda, and how many papers each boy carries and have the figures given out by the orator on Barnhart day Therefore if you have not withdrawn your acceptance to my offer as accepted by you in writing on Monday last, will you kindly advise my attorney or myself of time and place where my representative, Mr. W. W Cooley, can meet your representative, Mr. Smith, that they may proceed to select, under the terms of that offer, the third man. If you have withdrawn your acceptance, kindly advise me or my attorney of that fact at once that I may instruct my attorney to FILE SUIT immediately. Respectfully.

BISHOP'S SILK HOSE **NOT WEARING APPAREL**

NEW YORK, Oct 20—Rev Father Conaty, bishop of Los Angeles, won a tariff appeal when the Board of United States General Appraisers decided that rich silk hose imported for the use of the prelate at solamn functions are regalia and not duttable. While the bishop was in Rome some months ago he bought red and purple hose to conform with the colors of his vestments worn at certain ceremonies. The hose was shipped to Los Angeles direct, where the collector of customs decided that the articles must stand a 60 per cent duty under the provision in the tariff for silk wearing apparel

EPIDEMIC OF HYSTERIA SWEEPING THE LAND

CHICAGO, Cot. 20.—An epidemic of hysteria as contagious as the smallpox, according to Dr. A. B. Mitchell, of Lincoln, Neb., is a sweeping over the nation, and unless the public mind can be brought to a calm retrospection incelculable damage gaust be does. He attitutes the malady to funcied wrongs.

Dr. Mitchell's startling assertion was made at the meeting of the the horought out an interesting discussion of the nation's new affliction, the during which Dr. R. W. Corwin, president of the association, profiered to the association of high the physicians should mix the spiritual with their treatment of hysteria and should use less of the material, said Dr. Corwin. "Every the hody wants sensation. It has crept into our school board and into the filter of our women Women must have their teas and drinks. They go to the sods fountains—some of then—and order drinks. I will, the say, too, that they do not always order sods water. The fraternises among the school boys were recently abolished because it took their minds away from their studies."

Dr. Mitchell said hysteria was looked upon by people at large as an outbreak of certain overtaxed, over-emotional females finding expression in tears or convulsions, but the educated physician, he said, the contagious the character of the malady, he said, are recorded through all history those who possess that which the masses have given them the right to possess and give to those less gifted with forethought and courage thas reached a stage where it needs medical attention.

gambling houses and dance halls, or the government would curtail its patronage of the navy yard, the mainstay of a city of 15,000 people.

The cause of this letter is said to have been the visit of Forbes H. Brown, a clerk in the pavy yard and one of the leaders in the bigh license movement in this city, to the naval secretary in Washington Brown is reported to have charged that owing to the great number of salcons—one hundred—and the playing of percentage poker in the largest salcon in this city, the morals of the sailors of the American warships, of the 400 marines stationed on the island, and of 1900 workmen employed on the yard are at a low ebb.

employed on the yard are at a low ebb.

Just what action will be taken by Madigan is not known as yet and will not be until the receipt of the letter which is expected early next week. It is certain that something will be done, probably in the way of raising the saloon licenses in this cit; as the fee is now but \$80 per year. Vallejo has only five regular policeman, but it has a service that the city is proud of, as during the present reign of crime, with a great transient population, there has not been a single robbery or holdup.

Coming at this time, the matter will certainly be a big boost for the high license proposition at the coming special charter amendment election soon to be held.

The payillon is a very large one and the boys will have a section ail to themselves. The films that will be shown at the Pielmont Pavillon are the best set of films that, Miles Brothers have ever turned out. They were tried out a few days ago and proved to be the most, perfect pictures that were ever taken of a prize fight. Everything from the beginning of the fight until the very unsatisfactory ending in the forty-second round can be seen as plain as it was witnessed by the great crowd of paople who attended the fight at Goldfield, and paid as high as \$25 each for tickets.

The great pugulistic question, whether or no Mr. Siler, the referee, was able to see the final blow, can be settled to your own satisfaction, as the picture machine will be stopped when the punch is delivered The pictures will show the exact spot that the punch landed on and also the position of fine referee at the time.

Billy Nolan, the manager of Battling Nelson, has always meintained that it was impossible for Siler to tell whether the blow was fair or foul. Watch the position of the referee at this time and judge for yourself whether or not Mr Nolan's argument has any strength. In Cincinnati, O., a few days ago Battling Nelson saw for the first time, the pictures of the fight. Ever since the fight Nelson has had a grievance against Siler. Now he is more bitter than ever against that noted ring official who gave Gans the decision on a foul in the forty-second round.

ENGAGEMENT OF JERRY LANFIELD. Still more exciting is the engage-

Mr. Landfield is so delighted with his conquest that he has written most enthusiastically to friends announcing his engagement to the "dearest, sweetest. most beautiful woman in the world." Making all due allowance for the raptures of a successful lover, the princess is said to be rich, charming and young. as well as titled. The honeymoon is to be spent on the Mediterranean after which their plans are indefinite. Mr. Landsteld is at present residing in St. Petersburg to be near his inamorata, and this marriage will make him an even more enthusiastic Russian rovallst than he was before. Mr. Landfield's native place is Binghamton, N. Y., where his family resides. He is n young man of some wealth, a gradnate of Cornell, accomplished in foreign languages and widely traveled. He made many friends in San Francisco, Berkeley and Oakland during his residence at the Faculty Club in Berke ley, and was very popular with his fellow professors. The other class has lost heav ily, but it goes to work with a quiet endurance a courage that touches greatness. But neither class admits to itself the

real condition of affairs; one finds it out only when some sidelight shines suddenly on some phase of the question. For instance, there is the debris; men are at work among a wilderness of bricks, workers are shovelling bricks and mortar, and yet, after six months, experts tell us that not onetenth of the debris has been cleared away-that it will be five years before we can expect the grounds to be entirely cleared.

To the unprejudiced observer it would seem better to admit the encrmous destruction to property, the great obstacles to reconstruction, and to show the courage and hope and grit of a people who begin a task so stupendous in conditions.

And while it is all going on Oakland must represent home for a great many people, and as everything else has changed with us, so will our social conditions change in the coming winter. The many phases will be interesting to watch in the coming season. **36 36 36**

The patronesses of the Friday Night club held an important all-day meeting at the residence of Mrs. Edward Walsh last Wednesday, Mrs. Walsh entertained her guests at luncheon, and many plans were formulated for the success of the Friday night dances.

The patronesses who were present were Mrs. Q. A. Chase, Mrs. W. H. Chickering, Mrs. T. C. Coogan, Mrs. M. W. Kales, Mrs. D. H. Mathes, Mrs. J. H. Sime, Mrs. E. M. Walsh. SAVES CHILD

Mrs. W. H. H. Gentry Badly Burned in Rescuing Her Little Daughter.

BERKELEY. Oct. 20 .- Prompt action by her mother saved little Marian Gentry of 1444 Henry street from being burned to death Thursday afternoon. As it was, the mother, Mrs. W. H. I Gentry, was badly burned about the hands and arms in her efforts to save

The little girl was playing in they yard at the rear of the house near a pile of burning rubbish. She was wearing a long skirt over her own dress and while walking past the burning rubbish the skirt ignited and in an instant the child was enveloped in flames. Mrs. Gentry heard the agonized screams of the child, but was unable to go at once to her aid as she was caring for her infant. When Mrs. Gentry reached the yard she saw her Gentry reached the yard she saw her little daughter, her clothes ablaze, running wildly about the enclosure. The frantic mother went in pursuit of the child, but it was some time before she could catch the little girl, throw her to the granting and worther the fire with the ground and smother the fire with a saws. The child was serriously burned only.

The child was serriously burned only on the right leg below the knee, which is considered remarkable in view of the least that the long skirt she was wenting was burned from her body.

Mrs. Gentry, who was at one time a trained nurse, carried the child into the the house, and although suffering terribly from her own injuries, dressed the injuries of the child before calling for assistance for herself.

That the child escaped fatal injury is considered miraculous by Judge and Mrs. Gentry.

Great Number Out of Commission Causes Delay to Oakland Shipping

From present indications it is not expected that the Southern Pacific Company will find it necessary to extend the embargo on frieght shipments, so far as this point is concerned. At the present time Oakland is receiving and shipping

this point is concorned. At the present time Oakland is receiving and adipping more freight than ever before and doing it with dispatch.

The ben it of the recently enlarged freight yares at West Oakland and Kirkhain streets is being realized by the Southein Profile in the quanter in which the immensely increased volume of business is being handled. Although there is a prohibition against receiving for delivery lumber and lumber products c on this is not necessary and the local suppors are getting that class of freight here. One of the causes for the ticup in the lines which has resulted in blocking the delivery of freight at Sin Frencisco and in a measure at Edickely and Alamedia has been the continuance of the use of cars by shippits for storing purposes. This is done either because there are no facilities for tachousing or because the consignee is not ready to take the freight when it arrives at the yards. One film paid \$400 last month in derruming that all ages and considered that it were good deal for them.

REASONS FOR BLOCKADE

REASONS FOR BLOCKADE

Several reasons are given for the blockade of the lines. Just now there are a large number of curs tild up with the truit and hay crops of the State, which have to be moved promitly in order to save the faitner from 15%. There are no dequate winchouses and barns profisid a by the tramets and local dealers in the hay section for tilling care of this crop and they have always depended on the rail roads numbelling cars at this season of the year. The has been done in the sudchacks are filled with that many more curs and the difficulties in the way of cutting out others increased. In constant sorvice of the officulties in the way of eating out others increased. In constant sorvice of the rolling stock and the distributions in the distribution in the cutting out out of commission in the wind of the same of the distribution of claims and as in the winds of smaller stations.

While this was going or the freight in ordinary classes was at carmitting and when the flues were of 1 d to it the rafficults found them selves a full month belind with their work. The result was a pling up on the yard and sidetricks of a mixture of lealed cuts some of which the consigness were not ready to receive and are not yet and others which were wanted at ce. The work of switching a score of his winted cars out of the yard full of unwinted ones can be appreciated by a railroad man, but hardly by an outsider in the condition has remained practically the same since last June so far as the accumulation of these mixed cars to receive the tree mixed cars to receive by the breakdown of the large number which cannot be reported promptly has added to the difficulties.

Badly Drawn Will Is the Cause of Much Bother and Anxiety.

After remaining in abeyance for fifteen years, the estate of August Kracke, a well-known yeast manufacturer in this city, who died in 1891, was finally distributed yesterday by Judge H. A Melvin in the Superior Court to his two children, Mrs. Lily Knobloch and Harry Kracke, who are now both of age and residing in New York City.

When Kracke died he left a badly drawn will, which was a puzzle to the Dr. Wong Him, Herb Doctor legal lights who read its provisions. Located After leaving his property to his Permanently 1268 O'Farrell St. After leaving his property to his widow and children to be held in trust, he provided that his son and daughter should receive \$1900 each when they reached a certain age.

SHE SWALLOWS GOLD COIN: IS ARRESTED

Lillian Russell, the woman who it is said swallowed a five dollar piece which belonged to a man with whom she was drinking, appeared in department one of the police court yesterday and pleaded not guilty to charges of vagrancy and drunkenness. The prisoner admits that she swallowed the five dollar pleec, but why she cannot tell. She states that she put it in her mouth and that it stipped it in her mouth and that it sipped down her throat before she knew it. A charge of robbery may be placed against the woman for stealing the five dollars. Pearl Smith, another woman arrested on vagrancy and drunk-enness charges, also pleaded not guilty and her hearing was set for Novem-ber 12.

HAD MORE THAN 50 DUCKS; IS ARRESTED

For the alleged violation of the State game laws, it being claimed that he had more than fifty wild ducks in his possession, George W. Leisz was av-rested yesterday at his store, 339 Twelfth street, and a misdemeanor charge placed against him. Leisz en-tered a plea of not guity in depart-ment two of the police court this morning and his trial was set for October

Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without materation and in about one-third the time required by the cid treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balin acts on this same principle. It is an antiseptic and when applied to such injuries, causes the pain and soroness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries cantall. Why the Central Bank is forced to enlarge

> Because Oakland is growing fast and the Centrai Bank is growing faster.

> Way back, about fourteen years ago, the Centrai Bank first opened its doors in a very modest store on Broadway. It's principles were right and business grew rapidly.

Then a magnificent building was erected at Fourteenth and Broadway. The bank did not need all the street floor at first, so part was

Still the Central Bank and Oakland grew together, and now the bank needs more room. So partitions are being torn down to accommodate its many patrons.

The growth of the Central Bank is not phenomenal. Any commercial or financial concern that is fortunate enough to be located in Oakland and that will not be swerved from practices that are safe, progressive and right, is assured of BUCCESS.

In a few weeks-maybe a month or so-you will be welcome to the newer and more beautiful home of the Central Bank.

And in the meantime everything will go on as usual and safety deposit boxes-impregnable as Gibraltar-will be rented for \$4.00 a year.

People looking for homes to buy complain that prices are higher than they were some months ago. It is reasonable that prices should be higher, and no good Oaklander should complain, as long as they are reasonable, because Oakland, and necessarily prices of property there, must progress with growth. We have, however, one property at the same price as it was months ago. It is on the crest of one of the beautiful Linda Vista hills, having two car lines handy and the Key Route. It is on Mone Vista atenue, which is just about to be carried through direct to the Key Route depot without cost to the property-holders, is built in the best style possible having wood-fiber plaster, etc. in its construction. We will be very glad, indeed, to show this property to any bona fide purchaser. Inquire at once, as the property will last but a short time on the present market.

SEDAN CHAIR A 'PHONE BOOTH.

Wishing to have a telephone in her boudor, but refusing to mar the charm of that apartment with the ugly receiver and transmitter, a woman who is up to date, yet has artistic taste, is ufflixing a Sedan chair as a booth. The panels are painted beautifully, and it is lined inside with pale pink sath. Opposite the cushioned seat the telephone is fastened. The "booth" is lighted by an electric light inclosed in a rosy shade.—New York Press.
